

Newsletter and Program report 10.20.19

Since Town Meeting passed the article to purchase the Condon property, I think we should send out another newsletter this year. I am having hip surgery this Friday, so I can't get one out right away. But if people will work on information/articles this week, I will try to get a Fall issue out by early November.

Brian, could you write an article on the Condon property purchase? The reason for wanting to preserve the property, HPWA's role and thank you to those who supported the effort. This could be tied into our mission to protect and preserve the watershed by protecting key parcels of land.

Martha: Could you write about our membership drive? You could ask for volunteers to help with looking up addresses for the new Brochure mailing. Also do you want to write up something about the Herring meeting. Your report was excellent and you could summarize it and use the graph of herring counts.

Jerry: have you got anything from Ceci that you could put in the newsletter with information about some of the other ponds in our watershed? Anything from Sara Grady about the Sept. search for invasives?

Beth do you think this might be an appropriate time to put in something about the roll out of the new website and logo? ( I do not have a tiff or pdf of the logo, could you send one to me?)

Patrice: do you want to write an article about our social media presence?

Lee: I'm sure you will come up with your usual wealth of information and photos.

Don: In addition to your President's letter, do you want to write up something about the 2 new interns and what you are doing with them. Jerry sent me a nice photo of the two of them during the last water testing that we could use. Will you or Jack write up something for water quality?

Any other ideas for what could be included are very welcome.

I have nothing to report on next years programs at this time.
